

PLEASE keep KLOVE on the air!! Please do not replace it with any other programming. It not only provides a positive, family-friendly selection of music and comments, it also offers help to those who are suffering because of various stresses. Many lives have been changed by listening to KLOVE. In fact, my friend is a sheriff deputy and he plays it on his radio when he is transporting prisoners and several times the prisoner broke down and cried and asked for further information and assistance which the deputy was glad to give. The message of the gospel is life-changing and there are so many people who either won't or can't attend church, and this is the best way to reach those people who are hurting. Thanks very much.
